District Court, S.D.N.Y, 500 Pearl Street NewYork 10007 / In the United States Court of Appeals for the 2nd Circuit of New York, NEW YORK in 454 with cronies run the nation. Mr John G Roberts Jr's nomination was not confirmed 10007 ::: were under scrutiny of Senate (and PUBLIC). Roberts receive another political Pay off to be nominated by mr Bush a Human_God in USA to be nominee as chief Justice of USA. This was illegal because he did discriminate potential deserving candidates who were as wise or talented as Roberts. But defendant Bush did dictoorially stasge nomination by tking political edge of Republicans in Senate of US. Now any edge can not obliterate Political nepotisms, unlawful pay off of sevices of roberts in Florida Court in assistance of mr Jeb Bush to gain control of US Presidency Battle of November 2000 Presidential Election in US. By Chance and by luck Bush could grab U S Presidency but He did not buy rights and privileges of U S Citizens, backed by U S constitution. We Plaintiffs and sole appellant moved to Us District Court by filling through US PS priority Mail frm Saranac Lake New York in a civil action of violations of civil rights, as 'we the people" to void appoint of fir Roberts if confirmed by US Senate and he takes oath as Chie Justice of U.S. Supreme court, Washington DC, USA. It is within plaintiffs civil rights as U.S. Citizens to voice grievances against a Dictatorial action of a US President. Wwe want to ensure Justice in steps to follow but it may be hard to get in almost a dictators regime, Alternately American allies in Western Europe could teach a a US President how to resign from Presidency in USA as hard and fast rules for easy solution to failed US presidency, quicker election as a mandadate not availble, The impeachment and removal is even harder for failed US Fredent at the Current Laws, so Western leaders can teach Gerge W Bush as to how to resign a presidency or Leadership in a Nation named U.S.A. & in deep crises in home and abroad. Despite numerous hearings relative to both claimants, the voluminous records that have been submitted to the Board are largely duplicative, illegible and lacking in any appearance of having been records prepared in the ordinary course of business. The sparse tax forms that have been submitted have been amended with hand-written, difficult to decipher marginal comments of doubtful authenticity. The record as developed does not demonstrate continued entitlement to benefits.

Accordingly, carrier requests that the WCLJ's decision be affirmed and that the claims remain closed.

In the alternative, carrier requests that the Board exercise its continuing jurisdiction and plenary authority over these claims pursuant to WCL Section 123 and make a formal finding rescinding the establishment of these claims. See, e.g., Matter of Mary Tomlin v. L & B Contract Industries, 307 AD2d 682, 763 NYS2d 374 (3d Dept. 2003), quoting Matter of Buchanan v. Adirondack Steel Casting Co., 175 AD2d 971, 971 (3d Dept. 1991). The claims of Nirban/Lisa Roy were established based upon the corroboration of the associated claimant, whose credibility has come into significant question as proceedings in his cases have progressed. As in the Tomlin claim, the Board's plenary authority includes the ability to revisit its initial determination of "whether a workplace accident did, in fact, actually occur," particularly where the credibility of information relied upon is later shown to be unreliable. Considering the sharp contradictions and inconsistency in the record as a whole, this would be an appropriate instance for exercise of such authority relative to all four cases.

Based on the above and on the record as a whole, carrier requests that the WCLJ's decision be affirmed, or in the alternative, that the Board exercise its continuing jurisdiction and plenary authority pursuant to WCL Section 123 to rescind the establishment of these claims. If the Board determines that additional development of the record is required, carrier requests that the claims of both claimants travel together for hearing, as documents, testimony and other evidence are intermingled throughout the claims of both individuals.

Very truly yours,

MEMORANDUM OF BOARD DECISION

Opinion By: Scott C. Firestone Karl A. Henry

* This decision also pertains to the following case(s): 09333688.

Through correspondence filed on December 30, 2003, the claimant acting on his own behalf requests review of the Workers' Compensation Law Judge (hereination "WCLJ") decision made at a hearing on November 25, 2003 and filed December 4, 2003 that denied the claimant's request to reopen the claims. The WCLI specifically found that the claimant has not submitted sufficient evidence to prove the legitimacy of the alleged employer as directed by the Board Panel in a Memorandum of Decision filed January 24, 1996.

The claimant filed two claims alleging that he was injured while working at Handicap Interests International in separate accidents in 1993. The carrier raised the issue of fraud and collusion in both cases and the record was developed on the issue. In a Memorandum of Decision filed January 24, 1996, the Board Panel grave the claimant a final opportunity to produce evidence showing the incorporation of the alleged employer along with witnesses and payroll records to support his claims.

At a hearing on November 25, 2003, the WCLJ reviewed the Board file and various documents submitted by the claimant. The WCLJ concluded that the claimant has failed to submit sufficient evidence showing the incorporation of the alleged employer as directed by the Board Panel.

The Board Panel finds, following a complete review of the Board files, that the WCLI correctly concluded that the

Handicap Interests International

Ini: 6/7/193

Commissioners:

Application is herewith made for a review of the WCL Judge's decision duly filed on 12/15/00 wherein awards were made from 9/18/95 onwards at \$306.25 pursuant to a finiding that the claimant had a permanent partial disability.

Carrier takes exception to the decision in its entirety on the grounds that the company that claimant allegedly worked for never existed, and the claimant had no earnings in the year preceding her accident.

All information provided by the alleged employer was provided by Karuna Roy. He was allegedly in the car at the time of the alleged accident and also had a claim. In conjunction with his claim, investigations were made and it was clear that his alleged company never existed and he never earned any money from this alleged work. It also turned out that during the time he alleged he was working for Handicap Interests International, he had been collecting on another case where he was classified and never reported his alleged work.

The attached audit of the company led to taking Karuna Roy's testimony, 89 pages worth, on .9/19/95. It was clear from the testimony that Mr. Roy had no company and no income. However, since he stated that he could come up with tax returns, lists of contributors, and lists of clients (other than the one client he could remember, which was OJ Simpson), the case was continued,

Oppressors in association with alien force ( examle of Iraqi nationalist faith based movements and growing insurgencies as defined by superpowers or allies as

emocratic DETVISORS of the WORLD.

Plaintiffs and Plaintiff/sole appeties "Geronimo Jr rightfully claim non_partisan national Interests/correction/ in true interests of " We the citizens who live in USA and citizens at large all over the World who may follow american ideals in the name of Democracy. ++ ut the Defendants made the privilege harder. In Most of Western Europe in delepted economy nations with high sense of social equities and sense of Justice if a democratic leader falls in major responsibilities, he/ she often call for national mandate or new election of leader or new parliament but USA prefers to turn to dictorship of "Leader", for example Mr George WiBush a defacto Dictator of USA staged war in Iraq agINST WISHES OF 50 % Americans population, Tran policy almost failed in virtual scandal; about 2000 U.S. armed force members were killed; thousands were injured or oripided; thousands of innocent civilians died in Iraq encounters/ massive in humane Bombings, Mr Bush still can dictate his own ego and name it national interests, Dictators do often say so ( Remember Hitler 's Germany, When Bush's approval rating has now, gone below 40 % of American population. Mr. Bush did strike alien army in Alganistan, almost with little reason, therein, many young Americans in army et, al lost lives, in Bush's definitions of Humanity and DEMOCRACY, ALMOST HALF OF WORLD's POPULATIONS are TERRORISTS. No body is sure about the true difference in between a so called terrorist and a true nationalist. In Gandhian era terrorism with national freedom were so common in India , so is true in Countries world wide, Many Kashmir Nationalist forces are sacrificing their lives truly not for nothing. Even a poisonous Snake usually may not bite an animals until some one or body pretends or do really strike it first. So are the terorists. Foreign Nationals freedom are in stake based on faiths, isms, political considerations etc etc. EVEN MANY American , legally and in all considerations 100 % American have been termed as legal terrorists : Mr Bolton was appointed as ambassador/ Representative in World body UNO against wishes of US Senate. We know for sure it is no lesser job than one "Hitler in world war II era: Many poor american minority and racially neglected citizen in New Orleans died due to corrupt policy under Bush ADMN. At least some hundreds of lives could be saved in rich nation like USA if Bush did really a priority of reliefs for poor americans. Latest in a political deficiency he made a political Pay offs to one very JUNIOr, may be talented (talented lawyers are plentiful in USA. In fact USA got talented People in all fields of conomy, finance, societal conditions but most powerful dictors

Global, New York and USA incidences of Corruptions must stop against weaker People in JUNGLE Democracies.

Kamal Roy DOB: 03-31-34

Dr. David Thomashow 46 Church Street Saranac Lake, NY 12983

Dear David.

I had the opportunity to see Kamal Roy in follow up for his headaches. You had obtained an MRI. of his brain last month and asked me to review that along with his ongoing complaints of chronic daily headaches and dizziness.

As you know, I have seen him several times before and he has reported persistent head and neck pains dating back to an accident in 1993. He had suffered injuries to his head, neck and shoulder at that time. He has been followed by doctors in different locales for this over time.

Presently he takes Tylenol and a pain medicine from you that still do not make his headaches go away. His headaches worsened over the past two months and occasionally can be associated with nausea where he will have difficulty with eating. He has also complained of dizziness with some spinning sensations at times as well.

I understand that he is to be evaluated next month by Dr. Byrne for his persistent left shoulder problems. He has had an MRI of the shoulder done as well.

On examination today be remains dysarthric and difficult to understand, although he seems a bit better today than in the past. He is displaying spasticity in all extremities but left is much greater than right. He has a bit of a left pronator drift as well. Reflexes are increased throughout as well. His gait shows a stiff, spastic gait with significant circumduction primarily on the left side. He is quite tender in the cervical paraspinal muscles and has positive Tinel's signs over the occipital notches that reproduce his pain.

I have reviewed the MRI with him that reveals several areas of abnormality primarily in the subcortical white matter. The left posterior internal capsule thalamic region has a rounded area with magnetic changes possibly consistent with old bleeding. As you will remember, he had a stroke in 1987. There is also a more diffuse area of abnormality in the extreme capsule in the right hemisphere that probably would be fairly asymptomatic. Finally, the FLAIR image shows changes around the posterior horn of the right lateral ventricle. There is no mass effect of enhancement in this locale. He has significant atrophy throughout.

IMPRESSION: I still believe that Kamal Roy's persistent headaches are primarily related to his neck. Dating back to his accident in 1993 he has had persistent neck and head pain complaints. I would suspect that a referral to physical therapy may be helpful. Normally I try to avoid chronic daily analgesics, as these can lead to analgesic rebound headaches.

He still has such significant spasticity that even the therapy in the short run may not be all that helpful unless he can be loosened up further. Apparently he has been on Baclofen in the past but it is unclear if he is taking any at this point. Normally Baclofen is not that helpful for central spasticity, which is probably mostly what he is experiencing presently.

I doubt that the MRI findings are causing his headaches, as they are deep and in the white matter regions and typically do not cause pain. I believe that most of these are probably explained on the basis of is prior stroke, as well as his head injuries as well.

I hope this information will be helpful to you.

Sincerely

Edward J. Mazdzer, MD EJM/bl WE HO COM
